We are broadcasting our story of
THE MAGIC CARPET

Dear Friends

We guess every boy and girl has heard the story of the Magic Carpet of long ago - of how the fairy Caru-Banou sent a magic carpet to a Prince of India and all he had to do when he wanted to go someplace was to sit on the Magic Carpet and wish and away it would take him to where he wanted to go.

Then you've heard the man on the radio when he says "O.K. Los Angeles or Chicago or some other place" so he takes you on the Magic Carpet of the Air to hear a dance orchestra play in one of those places.

Well, a fairy was very kind to Billy and me and sent us a Magic Carpet and the place we wanted to go most was to Santa's home up where there's snow and ice. So we sat on the Magic Carpet and wished and up we went - then away to the North Pole - right to Santa's home.

When we got there what do you suppose we saw? Well there were little elves bringing lots of toys out of Santa's house and loading them up in his big sleigh just like you see on the covers of this book. And there was Santa and he had a long list of names of good girls and boys and he had toys for each one. He told us that when we got back we could see all these toys at the store whose name is on the covers of this book. So we picked out some of the toys we saw and show them here. You pick out the ones you like best and take Mother and Daddy down to this store and show them.

Your friends
