**LOG CONSTRUCTION
DESIGN BOOK
1A 2A 3A**

DESIGNED BY JOHN LLOYD WRIGHT

COPYRIGHT 1922 BY J. LL. W.

FOREWORD

BOYS You have read a great deal about log cabins and know that they were our first American buildings. So I have designed this log construction toy for you to build with. It is named Lincoln Logs after the great American, Abraham Lincoln, whose life was so closely associated with log buildings.

The logs are boxed in three sets numbered 1A, 2A and 3A.

This design book is enclosed with each 1A, or primary set, and includes designs that can be built with the combination of the additional sets.

After mastering the designs shown in this book, I hope you will create your own original designs. Any quantity of these logs are available for your use. The possibilities for making wonderful projects with these logs are unlimited.

BE BUILDERS

The glory is, if you build what you can,
That all the while you are building a man.

J. LL. WRIGHT.

Designer.
