# WONDERFUL NEW LIFELIKE MOVING TOYS

We have added Two New Wonderful and Attractive Toys

**THE CHARMING LIFELIKE MOTHS** are beautiful! They are copied from nature and reflect some of her most lovely children. We have reproduced three specimens—the "CECROPIA," the "SATELLITE" and the "REGAL" moths. Each one is dressed in gay colors and moves about in a winsome way.

**THE BABY TURTLES** have no rivals. Only exclamations of delight will express comprehensively the effect they will have on you when you see them walk away, with all four feet moving, just like the little fellow you once picked up when a boy. They are in colors—actual copies of living turtles.

DO NOT SEND FOR SAMPLES

When you come to visit the Toy Fair, be sure and call and see these Toys on exhibition at **OUR SHOWROOMS**. Also ask to see other new toys, even more wonderful, but not yet advertised.

# THE REMARKABLE ANIMATE TOY LINE

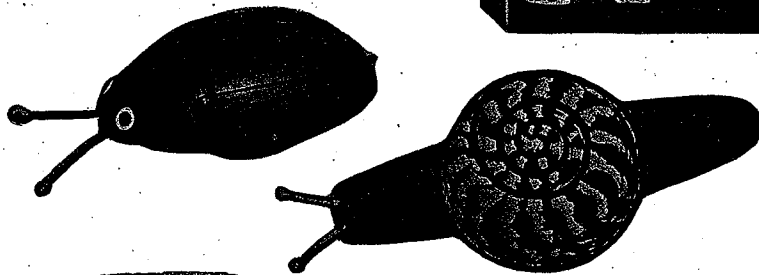

## INTERESTING BUG GAMES

There is something about these Games and Frolics that makes them more interesting, more laughable, more downright amusing than most anything else you can think of. Folks tell us that!

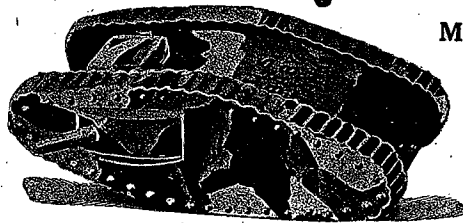

## WONDERFUL CRAWLING BUG

Our little friend comes back another year all smiles and as full of fun as ever. His family has increased until it almost covers the earth. He will crawl into the affections of thousands more by next Christmas.

## THE BABY TANK

The smallest tank in the world. Out only one year and over half a million sold.

## MYSTIC CREEPING SNAIL

Each one in a separate box.

You are invited to call and see the permanent exhibit of LIFELIKE MOVING TOYS AND GAMES.
