No. BR89

New MECHANICAL THRILLS AND

A real CARNIVAL of your own!

Merry-Go-Round whirls, its 4 horses racing 'round and 'round. In the big Ferris Wheel that turns at a lively pace you see three people riding. A speeding Airplane Ride, three airplanes flying in circles. Just push lever and the whole carnival is in action, running a long time. And don't miss the other attractions pictured on the fence surrounding the carnival.

STREAMLINED SIREN AMBULANCE

\$1.39

"Let's play I'm Doctor and you, Ruth, will be Nurse" said Billy. "And this speedy, streamlined, white ambulance, 1 1/4 ins. long will answer the 'hurry' calls to the hospital. As it races off after a patient, its siren shrieks loudly to clear the way. Extra long-running, wind-up motor. It will run straight or in circles. Balloon type rubber tires. Large rear-opening door."

STREAMLINE FIGURE 8 SPEEDWAY

No. BR93

\$1.95

Twin-track, racing speedway in shape of figure 8 with cross-over. Wind up the two racing cars, start them off—see them race several times around the big 8 that's almost 9 feet long. First one car's ahead, then the other. Tracks lithographed in color with principal cities so you can play a game too—car stopping nearest the city picked, wins.

TOYS THAT ARE FULL OF ACTION... says Billy

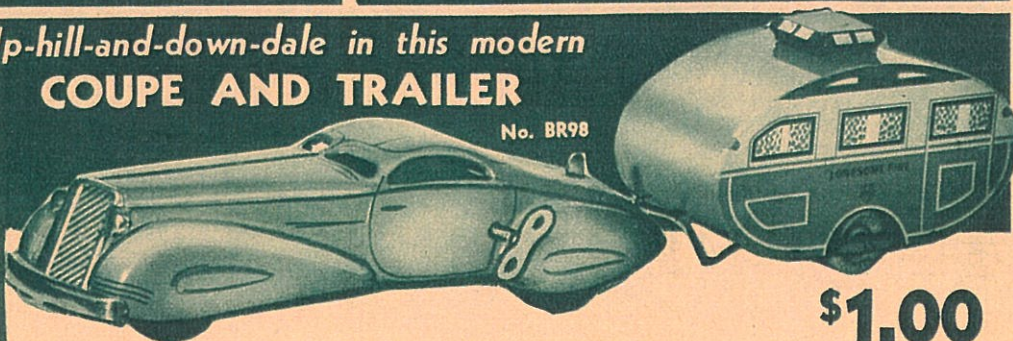

No. BR94

...acting things on wheels. ...delight young and old" say h. "Just like those you've been ment parks. There's a blue one ne. Wind them up—release 'll get the same fun watching antics as the two riders in each ng. Rubber bumpers prevent ture."

Up-hill-and-down-dale in this modern COUPE AND TRAILER

No. BR98

\$1.00

...erry tune as it whirls ong ride by simply press- er. The 5 horses are you can play a game too ping nearest arrow wins.

Billy says: "Everybody's talking about trailers these days—why not have one yourself for a trip across the country — an up-to-date, streamlined coupe and trailer like this. 23

... inches long—get that! Goes a-hummin' that's 'cause it has a big, strong, long-running, wind-up motor. Made of sturdy metal in realistic colors."

No. BR95

CORD ROADSTER

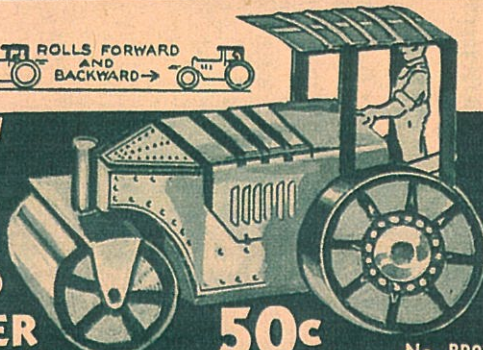

With "Zephyr" Free-Wheeling Motor
NO KEY — NO WINDING — NO BATTERY

Wheel What speed! Brand new kind of motor—just pull Cord Roadster backward for a few feet—let go and see it race across room. Why, it'll run 60 feet or more. It's a big car too—13 $\frac{3}{8}$ ins. long, modeled like latest Cord out of heavy steel and finished in bright colored enamels. Rubber tires.

79c

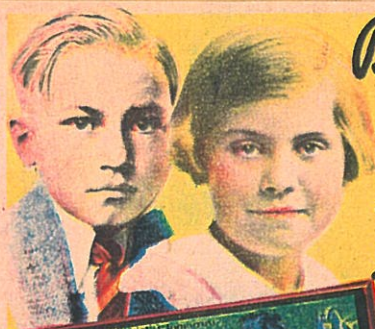

Back and forth it goes like a real ROAD ROLLER

50c

No. BR97

"Highway's gotta be repaired and here's the machine to do it" says Billy. "Back and forth it rolls, automatically, to make a good, smooth job—just like a real one. Don't you wish you had the job of the man on the rear platform operating it? 8 $\frac{1}{4}$ ins. long—a big mechanical toy."

Billy and Ruth agree that it's great fun to experiment with these dandy...

CHEMCRAFT CHEMISTRY OUTFITS

No. BR99

"The ideal beginner's set" says Billy "with liberal quantities of 20 non-poisonous, non-explosive chemicals and pieces of apparatus. Even has a test-tube rack so you can set up a little laboratory. Just think, there are 160 swell experiments you can do with this set."

\$1.00

Here's a larger set with No. BR100 which you can perform 235 interesting experiments. The book tells how and then there's a book of plans for making your home laboratory and a booklet on Chemcraft Magic. The 38 chemicals and pieces of equipment are absolutely safe.

\$2.50

\$5.00 No. BR101

"The complete home laboratory" Billy calls it. In addition to 64 chemicals and equipment that give you over 450 experiments, there are booklets on Glass Blowing, Construction of Laboratory Apparatus, Chemcraft Magic and Chemical Formulae and Symbols. An alcohol blow torch and plenty of test tubes, etc. in this set.

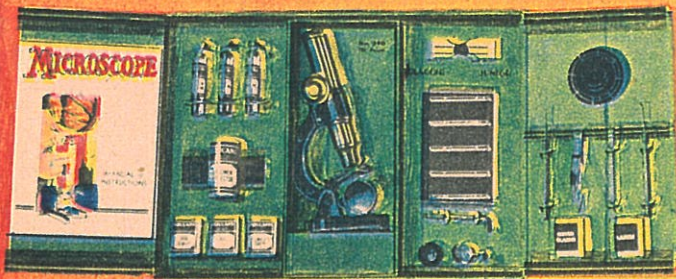

SCIENCE Craft MICROSCOPE SET

\$1.25

Billy says: "It's hard to believe, fellows, but the professional type, precision microscope in this set actually magnifies 10,000 times (100 diameters). You'll see, in detail, the thrilling wonders of animal and vegetable life never seen with the naked eye. Think of seeing, with this powerful microscope, a bee's stinger, or a mosquito's. The 4 specimens in set will astound you. Glass slides, dissecting needles included as well as a 16-page manual.

No. BR102
\$1.25

MECCANO POLARIZING MICROSCOPE

Polaroid — the new product of science, opens up a new wonderland of nature's hidden colors. Now, thru the Polaroid lens of this 200 power microscope, the invisible becomes visible. Even a pinch of salt, stems of plants, a piece of mineral are shown in beautiful, natural colors—colors that have always been there but cannot be seen under ordinary microscopes. Set includes specimens, slides, chemicals, etc.

GILBERT KASTER KITS

Boys! This caster is absolutely safe!

Billy says: "Fellows, you can make money casting and selling lead soldiers, etc. In one hour's time any boy can produce an entire army of soldiers, just as perfect as any you could buy. Safe, for you don't get near the molten metal. That's all enclosed—metal's kept hot by electricity and pouring is automatic. Simple to operate, too. Set mounted on a large base and is complete with one mold and plenty of extra metal. A whole bunch of different molds are available for making all sorts of figures."

\$4.95

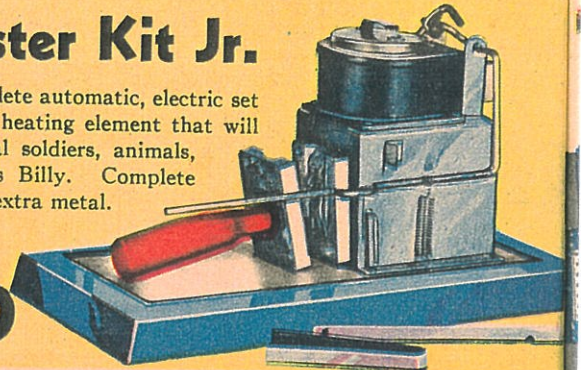

No. BR111

Kaster Kit Jr.

"Here's a complete automatic, electric set with a built-in heating element that will cast solid metal soldiers, animals, etc." comments Billy. Complete with mold and extra metal.

No. BR110

\$3.50

FUN WITH MAGIC AND PUZZLES

Be a Magician!

"Boys hold a Magic Show of your own" says Billy. "I do and its lots of fun. The tricks I do such as Buddha Money Mystery, Galloping Dime and ten others, I learned from the instructions included. They're not hard to perform either."

\$1.00

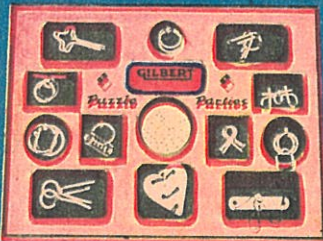

No. BR112

Fool 'em with the tricks in this PUZZLE SET

Billy tells Ruth "Let's see who can solve the 13 interesting puzzles in this set first. I had Daddy stumped last night and he had to look at the book that came with the set to solve that nail trick".

No. BR113

GILBERT TOOL CHESTS

Dad's set has nothing on this!

"Every boy loves to work with tools and will want this fine set" says Billy. 18 useful tools—the same ones a carpenter uses most. There's a saw, hammer, mallet, screw driver, chisel, square, mitre box,

No. BR115

\$2.50

brace, oh, just everything the young carpenter needs. Set is in a red metal carrying case.

10 Useful Tools for the Small Boy

\$1.00

Billy calls this a "Jim Dandy" set. Its ten tools are the most needed by the little builder, whether he's going to construct a boat, build a bridge or help Dad repair the back steps. The metal carrying case teaches the first lesson—how to keep tools neatly in one place, free from rust.

Gilbert brings you all these

Boys! This is Mr. A. C. Gilbert

Mr. A. C. Gilbert has always been interested in boys. That's how, some years back, he started to make Erectors, Chemistry Sets, Kaster Kits and all the other swell things he has developed for us. Guess you didn't know, fellows, that Mr. Gilbert won the World's Pole Vaulting Championship at the 1908 Olympics. Well he did. And today he teaches pole vaulting at Yale, his Alma Mater. He is a member of the American Olympic Committee.

No. 2 1/2 ERECTOR
 "This big set has curved and long girders, big red wheels **\$2.50** and with it you can build a ferris wheel, draw bridge, elevator, cranes, etc." says Billy. No. BR117

FAMOUS No. 4 1/2 ERECTOR
\$5.00 "Gee, this is a knock-out", cried Billy. "There's a powerful electric motor that runs on dry cells to drive all the swell models such as horizontal engine, bridges, cranes, etc. that you build with this Erector. Designs for hundreds of models to make are shown in the 'How-to-Make-'Em' Book included."

No. 1 1/2 ERECTOR
 "Boy, oh boy. What a swell beginner's set", Billy shouted. "Just think! — you can build a jib crane, battleship, wagons, trucks, etc. Plenty of parts. The young ones can easily make the models—the 'How-to-Make-'Em' Book tells how." **\$1.00**

CHEMISTRY OUTFITS

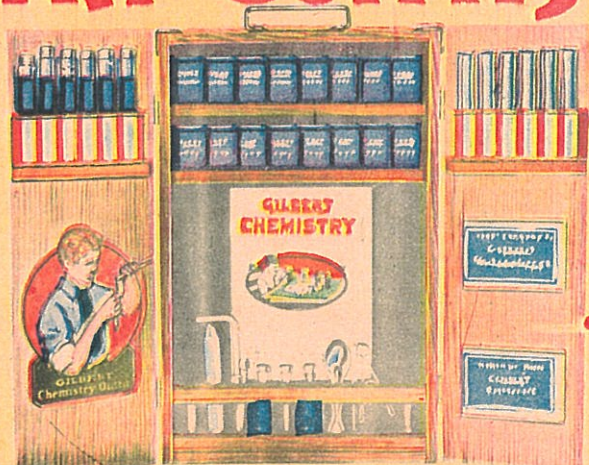

Catches Sneakthief with Chemistry

Dean I. Walter's knowledge of chemistry located a locker thief at his school. A solution that turns dark when exposed to the light was arranged so as to spill on the culprit's hand. Then he was quickly spotted.

Real Chemistry Laboratory in a fine Wooden Case

\$3.50

No. BR120

Think of it—clean silverware electrically, make ammonia, bleach and dye all sorts of things. Up-to-date set includes 49 pieces of chemicals and apparatus. Amaze and astound your friends with the 345 scientific experiments, all explained in big manual. Plenty of laboratory equipment—test tubes, etc. included in the big wood cabinet with folding doors and carrying handle.

A Dandy Beginner's Set

\$1.00 Billy assures parents: "Chemicals in these sets are non-poisonous, non-oxidative, so they're safe". 151 experiments can be made with the 23 pieces of chemicals and apparatus.
