## Large LINCOLN LOGS PRE-SCHOOL TOYS and AIRPLANE KITS

What Treasure-trove for playtime adventures! These newest, finest toys are added to the long list of **LINCOLN LOGS**—America's favorites for over twenty years.

The new De Luxe Sets of **Large LINCOLN LOGS and TIMBERS** have interchangeable round Logs,  $\frac{3}{4}$  inch diameter, and square Timbers, extra long Logs, Wheels, unbreakable metal Indians, Pioneers, Soldiers, Farm Animals and a strong mesh bag for the toys when not in use.

The new **LINCOLN PLASTER-KASTER Set** enables children to mold merry little "Dopey" without the use of heat. A split Rubber Mold of "Dopey,"  $3\frac{3}{4}$ " tall, Lincolnite Molding Powder and a Wooden Stand comprise this enjoyable new toy. Other Dwarf molds may be bought separately.

The new **LINCOLN PRE-SCHOOL TOYS**, developed under wise supervision of experts, are suitable for children 2 to 6 years of age.

The new **LINCOLN BUILDING BLOCKS** consist of sixty smooth, natural hardwood blocks of eleven different shapes, and a handy mesh bag container. With them simple structures may be created by even a very young child.

The new **LINCOLN ACTION PEG BOARD** really "works!" Wheels speed into action by a rubber band connection and the turn of a crank handle. Board is of natural wood, finished in lacquer with gaily colored pegs and wheels, making this a beloved toy.

The new **LINCOLN POUNDING POST** satisfies a small child's natural desire to pound! In bright green, red and yellow—this sturdily built toy is recommended by educators and parents.

Remember, too, the old favorites:

**LINCOLN LOGS**, Standard  $\frac{5}{8}$ " diameter. **LINCOLN TIMBERS**,  $\frac{3}{4}$ " square.

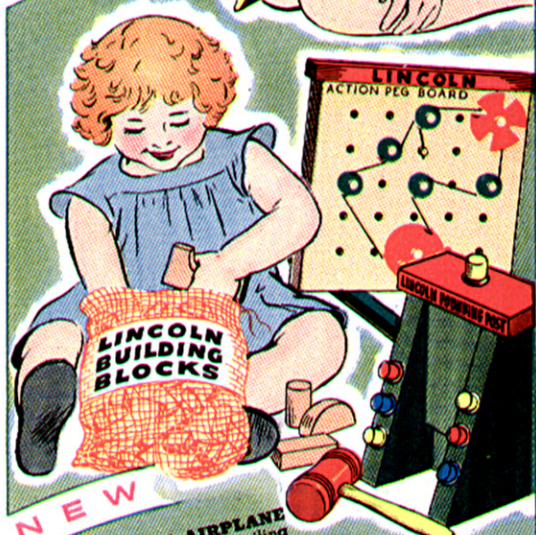

**EARLY AMERICAN FORT SET**, groups of several logs made in one piece for quick assembling—Soldiers of 1812 and Indians.

**LINCOLN BRICKS** with Mortar. Complete plans and specifications.

**LINCOLN RAILROAD STATION**—With appropriate Metal Figures included. Just right for miniature Railway Systems.

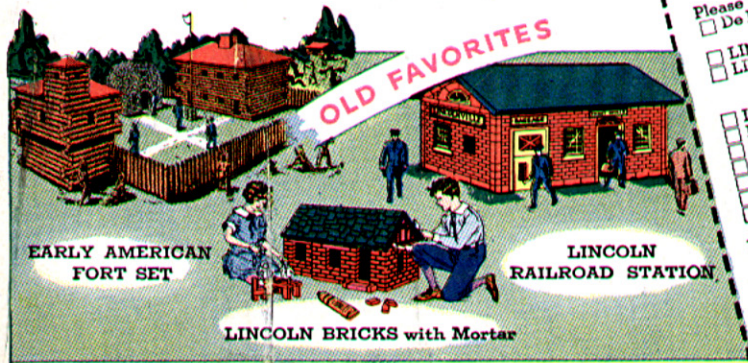

BE SURE TO BUY THE GENUINE
