**Toy Kraft - Bob Platt 2/3/04 Disc 0499633**

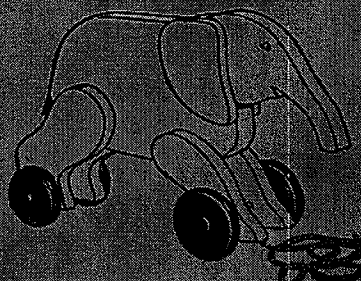

## From The Big Billy Boy

*Billy Boy* is a handsome young Giant of Irish all. He is all decked out in beautiful colors, and with flapping ears and swinging trunk makes an instant appeal to all little folks—

As if to say, "I'm just as snappy to look at as my big Brother."

DOWN TO THE BABY ELEPHANT

## But—

The *Hand Kraft Elephant*, smaller in size, comes coasting along in his bright red coat with blue and yellow saddle—

And—

*Little Brother* with lots of action, comes jumping, his head bobbing. What a pretty sight he is in his gay and gaudy colors—

Now—

We come to the end of the Parade, with the luckiest Fellow of them all—bright yellow with a blue Saddle and orange Feet. Some little Fox will be happy with him.

Prices Ranging from \$2.50 down to a Quarter

"Toy Train" Toys are sold by leading toy and department stores, but if you are unable to obtain them locally, write us direct and we will see that you are supplied.

## Library and Studies

**Abstract**

**WCS** **W**ASHINGTON STATE COUNCIL ON SCIENCE  
**S**UPPORTS RESEARCH ON THE  
**C**ONSEQUENCES OF THE  
**S**ALMON STOCKING PROGRAM  
**S**INCE 1980, THE WASHINGTON STATE COUNCIL ON SCIENCE HAS BEEN A MAJOR FUNDING SOURCE FOR RESEARCH ON THE CONSEQUENCES OF THE SALMON STOCKING PROGRAM. THE COUNCIL HAS FUNDED RESEARCH ON THE EFFECTS OF STOCKING ON THE WILD SALMON POPULATIONS, THE EFFECTS OF STOCKING ON THE FISHERY, AND THE EFFECTS OF STOCKING ON THE ENVIRONMENT. THE COUNCIL HAS ALSO FUNDED RESEARCH ON THE EFFECTS OF STOCKING ON THE ECONOMY AND THE CULTURE OF THE STATE.

Another little fellow said, "I'm  
 the one of these fellows that I don't  
 think that I have the good things  
 as well as the bad things. I don't  
 know students mark me out for  
 something. I am a student for  
 getting a mark for the same  
 thing. The things I do inside of  
 school are the things I do outside  
 of school. I like to have friends so  
 I do everything that is right to  
 have a good friend."

And a twelve-year-old girl displayed a wisdom beyond her years when she said: "The building of my future is shown in school life. My good qualities should be improved, however, my poor points grown to be better qualities. If I have a fine personality it is worth more than all the money in the world."

## The Child's Health

(Continued from page 22)

6. Excitement before the sleeping hours will cause poor sleep. Keeping the child out late at night not only cuts short the hours of sleep, but also interferes with the few hours of sleep that the child may get.

When you are tired you go to bed. You would thoroughly resent it if someone tried to make you stay up and keep going. The child does as he is told. Moreover, he would stay up until he dropped over exhausted if he were not made to go to bed. The day seems all too short to most children. The training of children seems to be such that practically all of them resent being put to bed. But if they stay up their bodies and minds resent the abuse given them. That results in the "tired child."

Your task as parents is a difficult one. You have to choose between the present ill-feeling of the child toward you, with future health and happiness as the reward and the temporary good will of the child, with a future of illness and suffering. Little thought should be needed in making the choice. (Plan the day well). Give plenty of time for rest and sleep. Do not over-fatigue. The bright, sunny, warm days will pass.
